

Year 4

Multiplicative Fluency 2

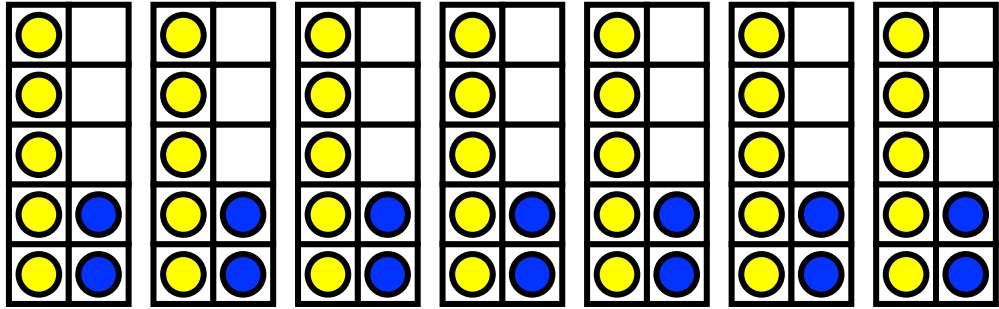

Week 4

Numbers 48 and 49

Notes for teachers in school or at home:

- This week is about learning key factors for 48 and 49 (up to 9x table)
- Know that 48 has 1 key fact: 6×8
- Know that 49 has 1 key fact: 7×7 .
- Understand that 49 is a number multiplied by itself.
- Understand how 6×8 relates to other factors of 48.
- Think about how 48 and 49 are related.

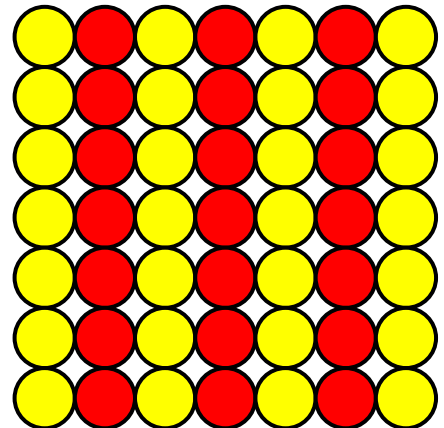

Number 49

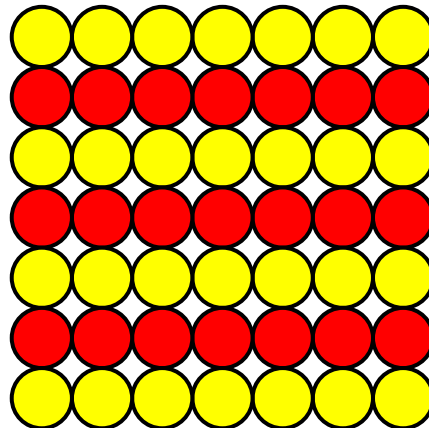

Can you see?

7 groups of 5?
7 and groups of 2?

7 groups of 7?

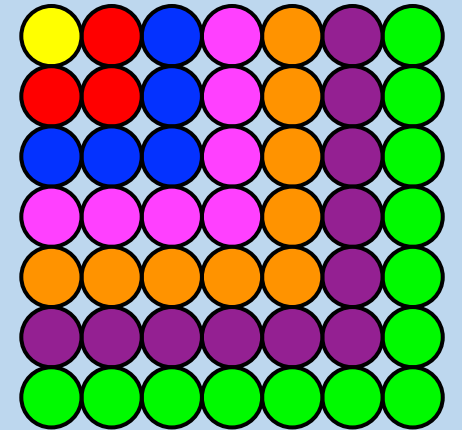

Can you see why
49 is called a
square number?

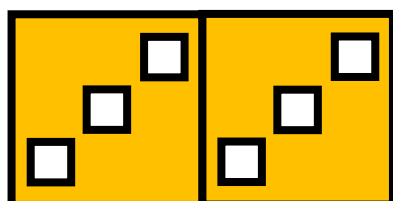

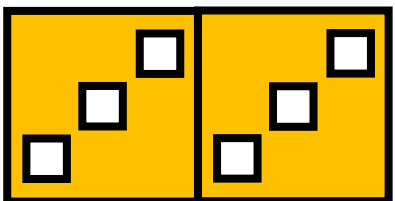

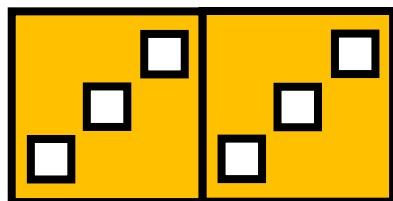

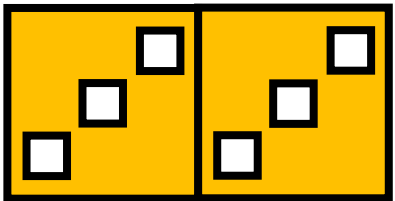

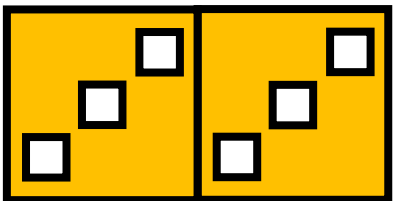

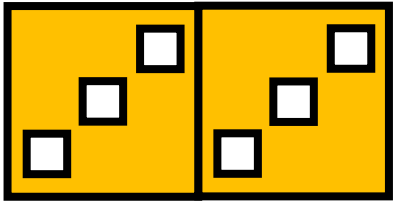

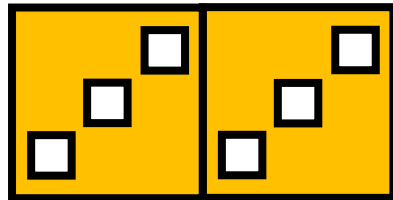

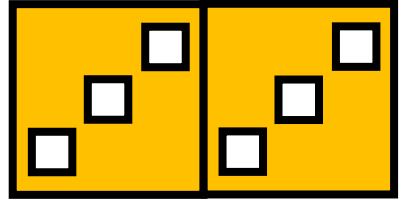

This is an
interesting
pattern hidden in
49.

Can you see how
it works?

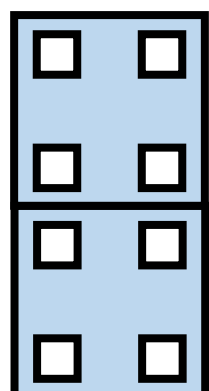

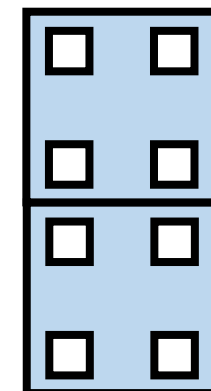

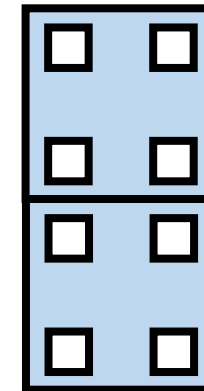

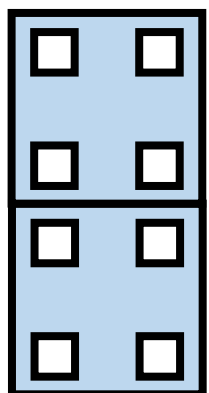

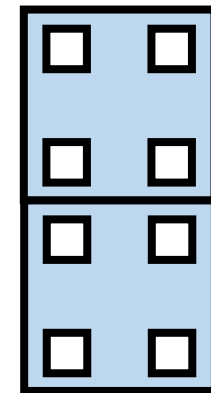

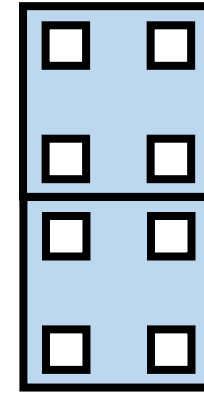

Number 48

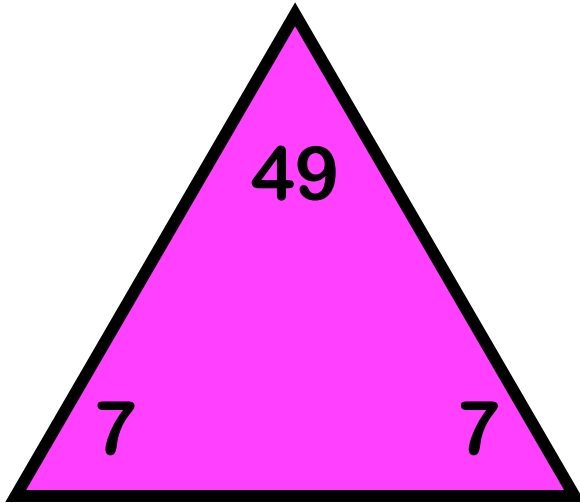

Look at these
dominoes.

What equal groups
do they show?

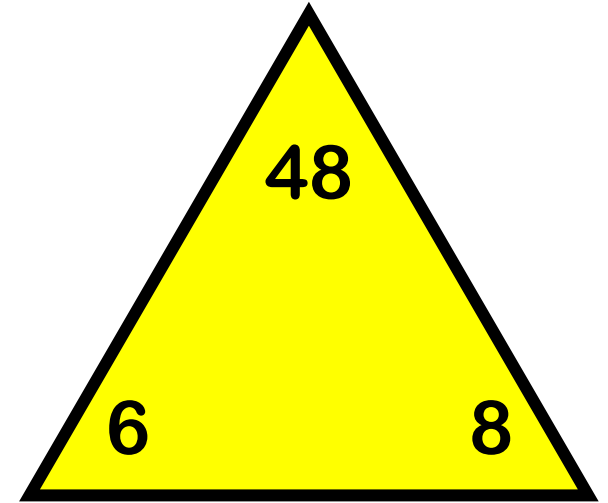

Facts to learn

One factor triangle
to learn for each of

48 and 49

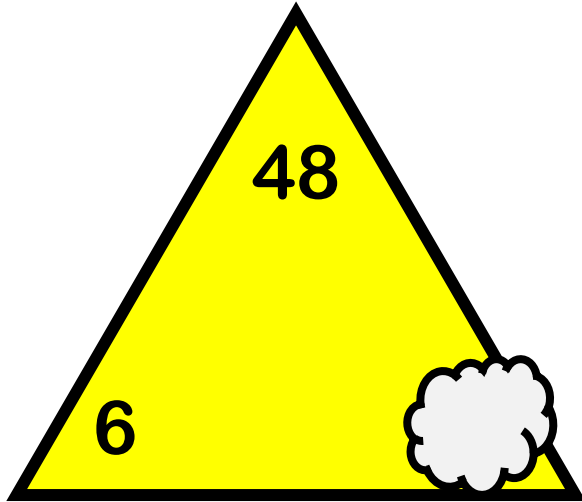

Make a card for each number.

Cover one number at a time.

Display it in a room.

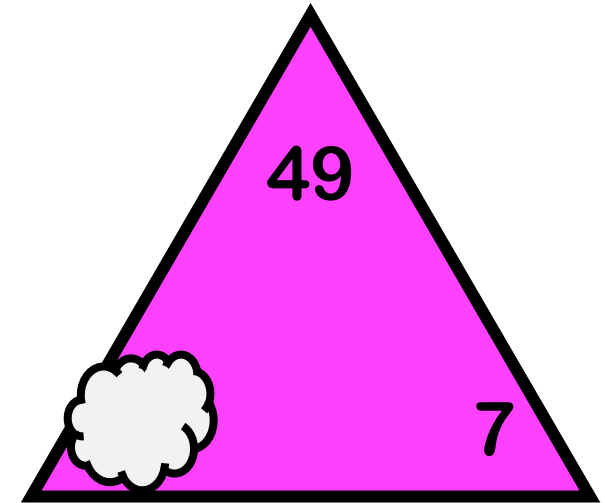

Try to remember the missing
number time you pass it.

Compare 48 and 49

Complete these
factor triangles.

Try to place them in
your long-term
memory!

$$\square \times \square = 48$$

$$\square \times \square = 48$$

$$48 \div \square = \square$$

$$48 \div \square = \square$$

Write two
multiplications and
two divisions using
the factors of 48

How many
multiplications and
divisions can you make
involving these factors
of 49?

Why is this different
than for the factors of
48?

1	2	3	4	5	6	7	8	9
11	12	13	14	15	16	17	18	19
21	22	23	24	25	26	27	28	29
31	32	33	34	35	36	37	38	39
41	42	43	44	45	46	47	48	49
51	52	53	54	55	56	57	58	59
61	62	63	64	65	66	67	68	69
71	72	73	74	75	76	77	78	79
81	82	83	84	85	86	87	88	89
91	92	93	94	95	96	97	98	99
								100

37	38	39	40
47	48	49	50
57	58	59	60
67	68	69	70

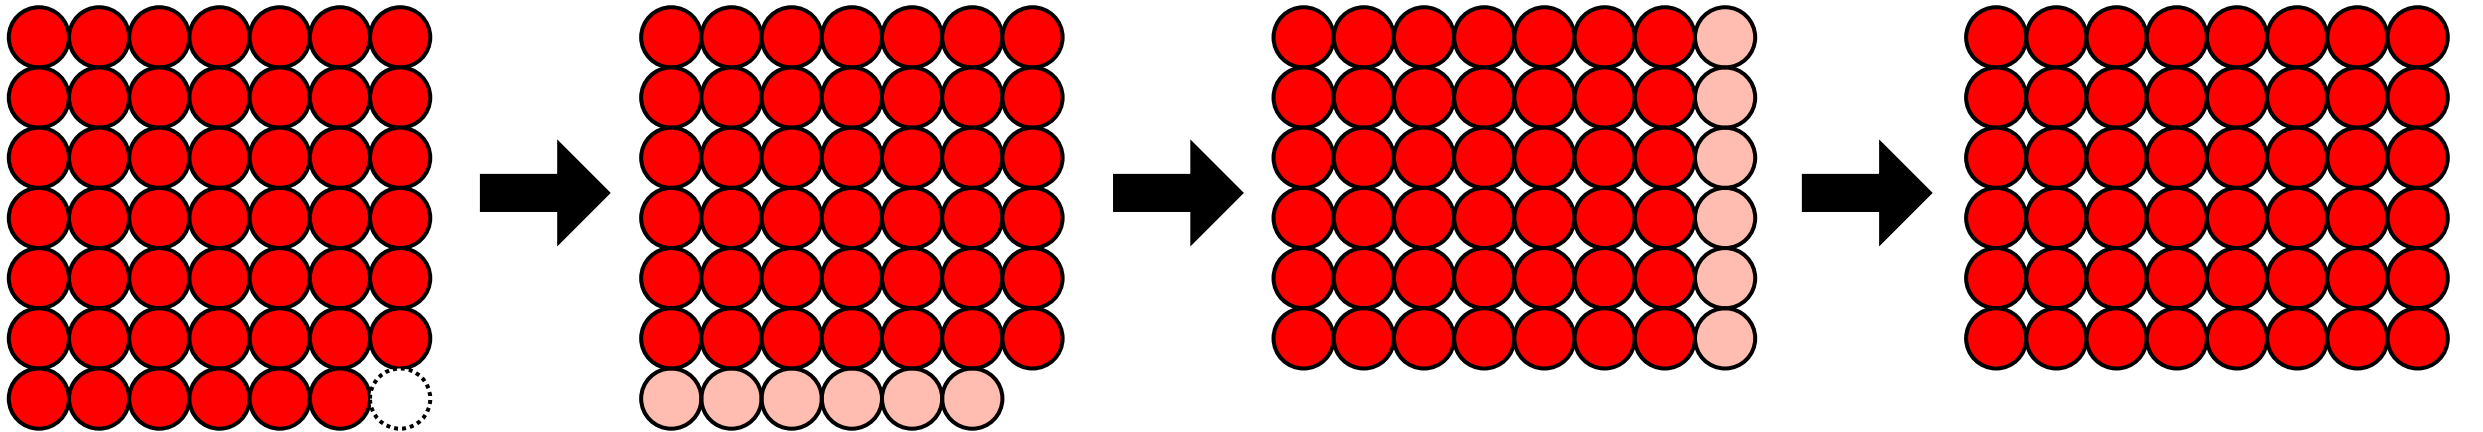

This week we learned
about two numbers
next to each other:
48 and 49

$$7 \times 7 = 49$$

$$6 \times 8 = 48$$

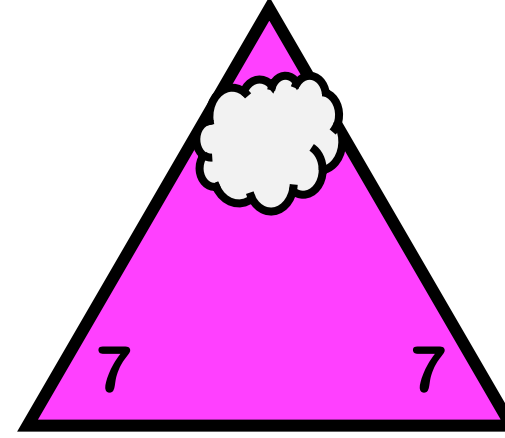

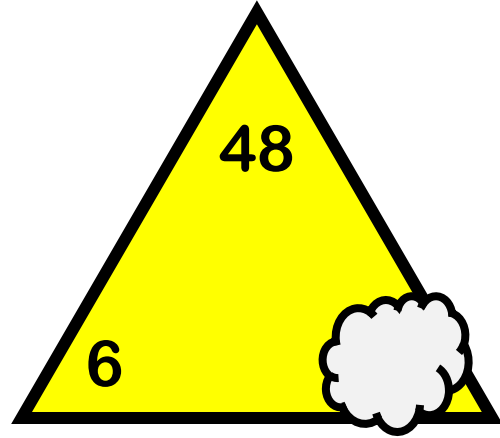

Can you see how
to turn 7×7 into
 6×8 ?

Can you see why
 6×8 is one less
than 7×7 ?

This week we have learned:

CODE Maths Hub

Can you remember these from earlier weeks?
