

Teaching for Mastery *in action*

9.30am to 12pm
Wednesday 18 January

High View School
Plymouth

You are invited to a taster session to see Teaching for Mastery in action. This event is for schools that are not currently involved in a Developing, Embedding or Sustaining Mastery Work Group.

**FREE
TASTER
SESSION**

There will be a chance for you to visit lessons in KS1 and KS2, as well as the opportunity for Q&A time with the teachers. You will hear from a headteacher, whose school has been working with the maths hub for a number of years, about the impact this has had on maths across their school.

During the morning, you will also have the opportunity to hear about the FREE Work Groups offered by CODE Maths Hub, along with a brief overview of what we mean by 'Teaching for Mastery'.

This event is for trust leaders, headteachers, school leaders, maths subject leaders, teachers and anyone who is interested in accessing free, high-quality CPD.

Please note, this event is for schools that are not currently involved in a Developing, Embedding or Sustaining Mastery Work Group.
